COMPANY BROCHURE

Medical equipment supply & laboratory setup

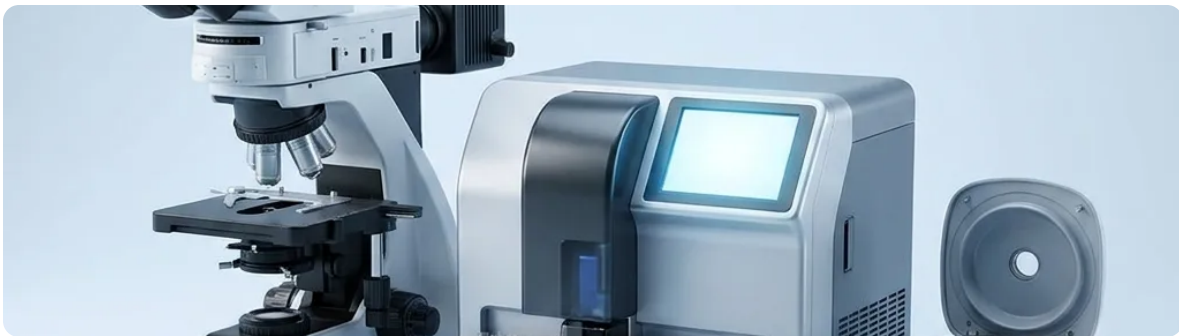

A Zürich-based, vendor-neutral partner equipping hospitals, clinics and diagnostic laboratories — from single-device supply to turnkey laboratories.

TMRS Medlab GmbH · WEV, Weinbergstrasse 56, 8006 Zürich, Switzerland · info@tmrsmedlab.com

ABOUT US

A partner that puts clinical need first

TMRS Medlab GmbH combines vendor-neutral medical equipment supply with hands-on laboratory setup, so healthcare and laboratory providers get advice, delivery and lifecycle support from one accountable team.

From our base in Zürich we serve hospitals, diagnostic laboratories, clinics and research facilities — sourcing globally, supporting locally, and standing behind everything we deliver. We are not tied to any single manufacturer, so our recommendations serve your clinical and budget needs rather than a sales quota.

Two pillars, one accountable partner

1**Medical Equipment Supply**

Sourcing and delivery of certified devices — from a single diagnostic unit to a full departmental fit-out — with complete documentation.

2**Laboratory Setup**

Turnkey design, build, instrumentation and commissioning of diagnostic and research laboratories, accreditation-ready.

CAPABILITIES

End-to-end, from first plan to final handover

Equipment Supply

Certified, CE-marked devices delivered with full documentation.

Laboratory Setup

Turnkey lab design, build, instrumentation and commissioning.

Procurement & Sourcing

Vendor-neutral global procurement that protects your budget.

Installation, Training & AMC

Installation, staff training and annual maintenance.

Healthcare Consulting

Feasibility, planning, layout and compliance advisory.

Quality & Compliance

ISO-aligned processes with full traceability.

Vendor-neutral advice matters most where it saves you money — the right equipment is the one that fits your workload, budget and service reality, not the biggest brochure.

Why healthcare providers choose us

- **Vendor-neutral** — we recommend what fits, not what we're told to sell.
- **Global sourcing, Swiss support** — worldwide reach, locally accountable service.
- **Compliance built in** — CE-marked devices and ISO-aligned processes.
- **Fixed scope, no surprises** — transparent proposals and milestone delivery.

- **Lifecycle support** — training, spares, calibration and maintenance.

SECTORS WE SERVE

Built for the places care happens

Hospitals

Departmental fit-outs and turnkey builds across imaging, ICU, theatre and wards.

Diagnostic Laboratories

Our specialty — from single benches to accreditation-ready builds.

Clinics & Polyclinics

Right-sized diagnostic and treatment equipment.

Whatever the setting, we help you scope, budget and deliver the right equipment and setup — and we keep it running afterwards.
